

I am writing about the issue of the LPFM stations. I understand that this may in some ways effect or even replace Fm translators stations such as K-Love radio. I listen to K-Love frequently and I am a financial supporter of their program. I believe that it is an important part of the community and I would not want to lose it. It feels great to be able to listen to a station with your son in the car and not be ashamed of what is playing. If K-Love were no longer offered it would be a great loss to our community. In order to not have to give in to sponsors demands they are listener supported which means they may not have the technology or the ability to overcome this set back if it were to come to be simply because they cannot compete with the bigger stations. I really hope that you would take this into consideration when making your decision.
